***A fairy tale about
the power of music!***

Here is Katowice.
He just received a trumpet
from his grandfather – ex brass
band musician – and now
he has a mixed feelings...

Katowice **has heard**
of a traditional brass band before,
but thinks it's not that "cool"...

Katowice has decided
he had more important
things to do...

Everything has changed
when he has an opportunity
to try to play in his school...

But these were
only single, one-time
workshops ... **Anyway,**
now Katowice has
no time to practice
playing the trumpet...

Meanwhile, his grandfather decided to **join the URBACT** programme and save the local heritage...

Grandpa!
This is really cool!
I also want to play
like that!

Something has changed
not only in Katowice,
but also **among his classmates...**

COOL
KOOL

Finally, they are motivated
to practice, because thanks to
regular classes they see the effects...

The kids didn't even
realize when they
became friends...

**But they already knew
that they wanted to
bring joy to other people.**

Then the pandemic
stopped everything...

Now they know that nothing could stop them. They have dreams, they have power, they have knowledge. They have experienced how music unites their community and therefore **will continue to play...**

**Grandpa
is very proud
of Katowice
;-D**

But how
did we get there?
Let's listen
to **our** story

Opening by Waldemar Bojarun, City of Katowice's Deputy-mayor for Education and Culture

Waldemar Bojarun,
Wiceprezydent
Miasta Katowice
ds. edukacji i kultury
